

Key achievements to date:

- Governors, Senior Leaders and the P.E Subject Leader are committed to ensuring that all pupils will receive 30 mins a day of activity in school as well as at least two hours of high-quality physical education teaching per week, delivered by confident, well-trained sports coaches and teachers. The successful delivery of the curriculum supports all aspects of health education within the school.
- Our new PE leader was inducted over the last year, with the support of our school governor with responsibility for P .E. and Sport (Richard Butler); skilled P.E. and Sports Coaches (Onside Coaching) and an external P.E. consultant.
- Monitoring of lessons ensures that they are planned and delivered to a high standard, guaranteeing both pupils enjoyment and achievement. The school holds many competitive and inclusive house events throughout the year as well as a key stage sports days, which include both traditional and competitive races in order to include all pupils.
- For several years, we have adopted a house system on sports days to develop healthy competition. We aim to develop this to launch half- termly house sporting events. The P.E. Leader, Senior Leaders and Sports Coaches reviewed and developed our Sports Days, building on success of the previous year. This year we plan to make our distance races more competitive with the introduction of a leader board with school records to aim for.
- We shall continue to link with local primary schools in the Leamington Consortium, for all events such as football, netball and athletics. The sports partnership link enables children to take part in a huge range of competitions across the school.
- The UNICEF Convention of Children's Rights Articles 15 (freedom of association), 24 (health and health services), 28 (right to education), 29 (goals of education), and 31 (leisure, play and culture) have been an ongoing focus at Sydenham Primary School since February 2018, and have helped us to achieve the UNICEF Bronze Rights Committed Award in March 2018 and the UNICEF Silver Rights Committed Award in September 2018. Children across the school are able to exercise their right to good health through regular physical activity at school; their right to join school extra-curricular sports clubs; and their right to relax, play and take part in a wide range of sporting and physical activities, including a number of competitive events led by the school sports partnership.
- In 2016 we introduced Sports and Play Leaders at lunch time, who support the adult lunchtime Play Leader. This role has been developed with the P.E. Subject Leader so that the Sports and Play Leaders take greater ownership of the P.E. curriculum, and support with monitoring the quality of learning during P.E. lessons, alongside our Learning Detectives. The Sports Leaders programme is targeted at those older pupils who have the desire and skills to promote the benefits of participation in sport both within and external to their lessons. Pupils are given the opportunity to report during school assemblies and contribute to the weekly school newsletter. Pupils participating in the scheme (which is organised by our local School Games Organisation) are part of a national programme that encourages more able performers to understand the processes of coaching and managing practices and sports tournaments.
- We offer an excellent range of extra-curricular clubs, including, Football, Netball, Multi Skills, Athletics, Cricket, Ballet, Yoga, Bhangra Dance, Rock-climbing and Kayaking, and

these provide all children, across the whole school, the chance to participate. Many of these clubs are offered free of charge and led by school staff. Clubs led by external partners are often partially or fully subsidised by the school so that all pupils may participate. In 2019 we achieved the Silver School Games Award, and in July 2020 were given the Virtual School Games Award for 2019/20.

- School facilities are extensive and appropriate for the activities that are currently delivered in P.E. lessons. Our outdoor fields offer an excellent space for athletics, tag rugby, football and other games. The playground space is clean, secure and suitable for net, wall and other playground games. We plan to extend the range of playground markings to extend the range of activities delivered during lesson and break times.
- Our school offers a Forest Schools Curriculum in our Forest School Area, with three Level 3 Forest School Leaders and a further Level 2 Forest Schools Assistant. Pupils across the school have access to Outdoor and Adventurous Activity, and develop their skills each academic year, as they move up the school.
- Indoor facilities for the delivery of the P.E. curriculum are very good, comprising of two halls. These have been recently refurbished, with new flooring. We aim to have the indoor hall floors marked for a variety of games. Displays boards around the school feature examples of positive sporting role models and reference the benefits of physical activity and a healthy lifestyle.
- The relationships between pupils, school staff and Sports Coaches are excellent. All parties speak to each other with respect, so that there is a productive working atmosphere in P.E. Coaching sessions are highly inclusive and organised in such a way that pupils feel able to perform in a safe and encouraging environment.
- An annual maintenance check of equipment is carried out by a recognised provider and reports are logged and repaired or replacement of equipment actioned, where necessary.
- 68% children participate in extra-curricular school clubs (based on 2018-2019 data).
- 38% children have participated in competitive events (based on 2018-2019 data).
- The last academic year continued to show an increased number of children from across the Key Stages participating in a range of sports competition against other schools. The success of many of our children in these competitions has further raised the profile of sport in the school.

Focus areas this year:

Priority 1: To improve the quality of teaching and learning in PE so that it is consistently Outstanding across the school.

Priority 2: Increase participation in competitive Sport for all children.

Priority 3: Engage all pupils in regular physical activity including offering a broader experience of a range of sports and activities to all pupils.

Priority 4: The profile of P.E. and sport being raised across the school as a tool for whole school improvement.

Meeting national curriculum requirements for swimming and water safety

Please complete all of the below:

What percentage of your current Year 6 cohort swim competently, confidently and proficiently over a distance of at least 25 metres? N.B. Even though your children may swim in another year please report on their attainment on leaving primary school.	87% (Year 6 – July 2019)
What percentage of your current Year 6 cohort use a range of strokes effectively [for example, front crawl, backstroke and breaststroke]?	87%
What percentage of your current Year 6 cohort perform safe self-rescue in different water-based situations?	82%
Schools can choose to use the Primary PE and Sport Premium to provide additional provision for swimming but this must be for activity over and above the national curriculum requirements. Have you used it in this way?	We re-designed our swimming curriculum in September 2018, so that any pupils at the end of Year 5 (this is the year group that attends swimming lessons) who are unable to do any of the above will receive additional catch-up provision. This strategy was successful in Summer 2019. In Summer 2020 we were unable to use this approach due to the Coronavirus pandemic and the closure of the leisure centre swimming pool.
