I see my relatives

I hear every time the voice of the birds

I smell my mother delicious cooking

I feel very happy with family

## **Now I am in England**

I see every time raining

I hear bell of church

I smell cooking in my kitchen

I feel very lonely

In my opinion, home is not a place. Home is the sum of your feelings experienced in one place. Home is where the heart is happy and peaceful.

Our home, a sanctuary of love and laughter. Each room holds warm embraces, each corner echoes stories. In its warmth, we find solace, in its walls, we build dreams. Home, where our hearts reside.

Hello, I'm **Katerina**, I'm from Ukraine and this is my favourite city Chernomorsk in Ukraine where I lived, and here are some photos: this is the embankment of the Black Sea beach. I love my city with all my heart and miss you!

I love to see the rainbow, it makes me happy and it also represents the end of the bad weather and runs to good things. At home, I always can see it after it rains.
